Relâche Collection (171 records)

A curated digital collection of audio recordings documenting concerts produced by Relâche (The Ensemble for Contemporary Music) from 1977-1989. Material was provided to Other Minds by composer and Relâche founder Joseph Franklin. The original audio tape reels were digitized by Relâche's longtime engineer Werner Strobel and many of them are now part of Other Minds' tape collection housed in Special Collections in the McHenry Library at the University of California Santa Cruz.
